

3D RAINBOW

1. Colour in the individual strips with rainbow colours.
2. Ask an adult to help you cut the strips and clouds out.
3. Using glue, carefully stick the end of one strip to the middle of a cloud and then repeat with the other end. Secure both ends with tape. Keep going until all the strips are attached to the clouds at both ends.
4. Apply glue and add cotton balls or scrunched up paper to both clouds.
