

RAINBOW Mobile

1. Colour in the rainbow arches however you wish.
2. Use scissors to carefully cut out the three arches.
3. Ask an adult to help you stick the three arches on to cardboard and trim.
4. Ask an adult to make holes through your arches where shown.
5. Cut a piece of string and push it through the first hole. Then tie a double knot to secure it. Repeat this step two more times until you have your very own rainbow mobile!

6. Display your rainbow mobile in your window for everyone to see!
